A TIMES-DEMOCRAT reporter got one of his boxes a little hot because he could not learn the particulars of a railroad accident from some of the railroad officials. He says they knew there was such a railroad and that it ran locomotives instead of billy goats, but did not know that an accident had really occurred. In fact they did not know anything, only to smile-just like the maidens in the Mikado.

Well Watched.

NEW YORK, Oct. 15-Clason Graham drew the money on a check for \$26,000 signed by his employers, Spencer, Trask & Co., oil brokers, and took a train for money being back in town next day. The quickness of suspicion and action in the case of a man whose reputation had been good, was due to the fact that panies, that have lately come into use here in New York. These concerns insure employers against loss through the thefts of employes, and relieve the latter of the often difficult task of ready bonded in this way by the companies, among whom brisk rivalry has already arisen. THE CLASS OF RISKS.

Railroad employes, bank clerks, court officers and all sorts of financials are chiefly the men involved. Before making the bonds the persons' character are investigatel as fully as possible; but that is no complete protection, for one company has already lost \$10,000 through Paying Teller Charles A. Hinckley, of the West Side Bank, and Teller F. J. Dieterichs, of the Laclede Bank, St. Louis, both of whom were above reproach and one seemingly pious. The preference is for employes of institutions subject to State investigation annually rather than the handlers of money for private firms. Nearly all the men in the New York Postoffice, and over half those in municipal offices of finance are now included in the risks. The charges range from 1 to 1 per cent. of the amount of pluck they deserve it, and we feel detective. Every insured person is watched, and very closely, too, if the slightest looseness of conduct is observed. In the instance of Clason Graham, a detective reported that he was becoming a lounger about town a week of first class sport. Many of at night, and apparently was spending more income than his salary could provide. At the moment when he cashed the big check a spy had him in sight, and did not quit him until he took the cars. Then the detective telegraphed to the company that he was going to go, too, and would look for orders at Springfield, where the train would make its first stop. Hasty inquiry of Spencer, Trask & Co. brought out the fact that Graham was absconding with \$26,000, and word was wired

A Clever Young Swindler. CHICAGO, Oct. 19.-William C. Glenn, a youth twenty years old, was lodged in the county jail yesterday, to await a hearing before the United States commissioner on the charge of conducting swindling operations through the mails. Grenn lives at Rochelle, Ill., where he has been employed in an office with his brother, who is postmaster at that place. Some time since Glenn is said to have begun negotiations with Eastern dealers in foreign postage stamps, and curios of that description, under half a dozen fictitious names. The Second National Bank of Rochelle was given for reference as to the solvency of such of these mythical persons. This bank existed only in Glenn's fancy letter heads, which also gave the names of its imaginary officers and the amount of its supposed capital. Glenn received all letters addressed to the bank and gave the fictitious persons excellent financial ratings. These several imaginary persons then ordered large quantities of merchandise on them. Glenn is said to have received from \$100 to \$500 worth of goods from A.S. Symms & Co., of Alexandria, Va.; E. B. Sterling & Co., Trenton, N. J., and Wm. Wetterer, of Baltimore. Complaints were made at the Postoffice Department by Symms & Co., and an inspector was put on the case. After weeks of watching Glenn was arrested Saturday. Search of his room at his father's house revealed about \$1,200 worth of stamps and other articles shipped by Eastern firms.

Killed by a Truck.

Killed by a Truck.

The Vicksburg hook and ladder truck, driven by Patrick Coffee, the regular driver, was out in answer to an alarm of fire about 7:15 o'clock last evening, and going out Openwoods street when near the triangular intersection of Main street run over and mortally wounded deorge Perry, the thirteen year old son of Mrs. O. H. Perry, the horses knocking him down as he attempted to run across the street in front of the approaching truck, and the ponderous wheels passed over his abdomen, inflicting injuries from which he soon died. Mr. Coffee, the driver of the team, states that he had just received inflination that it was a false alarm, and was preparing to turn into Main street, when young Perry attempted to cross the street ahead of him. Says he did not see him ustif the horses struck him, and it was impossible for him to check the truck before the wheels were upon him. After the first wheel struck him he attempted to rise and the hind wheel struck and passed over him. He was picked up and carried home and died within a few minutes after entering the house.

The funeral will take place from his mother's residence on Second North street, between Main and Jackson, at 3:30 o'clock, and from Christ church at 4 o'clock p.m. to-day.

Death of Wesley DeKnight.

Mr. Wesley DeKnight died at \$230 o'clock yes terday morning from the terrible mangling he had received at 120 the day previous. The fact was apparent not only to the doctors, but to all who beheld his condition at the time of the accident, that it was but a question of time and that very brief, when he would succumb to the irreparable injuries. The doctors, on this account, would not punish him with the ordeal of an amputation of the mangled imbs, and did all in their power to alleviate his suffering and agonizing realizations by the administering of sedatives. He was conscious and in a measure cheerful throughout the evening and long night watch. At fir i he assured his family and friends that they need not grieve as he would recover. When it became apparent that he was sinking and the hour of dissolution was approaching Mr. John Lavins, who was with him through the night, told him of his condition and he received the information without a murmur, referring to it in a casual manner. He leaves a devoted wife and two loving little daughters, besides a number of other relatives and many friends to mourn his loss. The funeral takes place at 10 o'clock this morning from his residence, on Main street. A strange connected with the death of Mr. DeKnight is the fact that an elder brother of his was filled at Pittsburg, Fa., some years before Wesley was born, by having both his legicut off near the body, by a railroad car running over him. The sympathies of this community go out with common secord to his bereaved family. Death of Wesley DeKnight.

FROM HOLLY SPRINGS.

Rebert J. Doxey, the Wife Polsoner, Taken from Jall and Hanged-Full Particulars of the Case, pecial to Commercial Herald.

HOLLY SPRINGS, Oct. 21 .- A mob

of about four hundred men, armed, came to town at 2 o'clock this morn ing, and rode to the jail, demanding of the keeper one Robt. J. Doxey, who murdered his wife in August last. They overpowered the guards, and not being able to work the combination of the criminals cell, broke the lock, took Doxey out and carried him one mile northwest of the town and hung him. Doxey was indicted last month, and put on trial, but obtained a change of venue on the grounds that the Marshall County Register had, by publishing a full account of his crime, prejudiced the people against him, and the subscription books were brought in court and proven to exceed that of any other paper in this section. On August 8th, Doxey compelled his wife to go with him to Mrs. Johnson's to stay all night. Mrs. Doxey, being enciente, complained of feeling unwell. The following day Doxey came to Holly Springs to buy medicine for his wife, and while here he purchased some liver pills, and five cents worth of strychnine. After arriving home Doxey gave two of the liver pills to his wife. He then called for a saucer and some flour, and made two alleged quinine pills and gave them to his wife, from which she died in two hours. Doxey is a nephew of the late Gen. Thomas Hindman. His mother, who lives in this city, is a most excellent woman, and his wife was the daughter of a well-to-do farmer. Doxey was on the eve of fleeing the State when suspicion was declared and his arrest made. The body of Mrs. Doxey was exhuned and the contents of the stomach and bowels taken out and analyzed by the State chemist. The result showing the presence of strychnine in large quantities. It was proven that on the 10th of August, Doxey said he thought his wife would die, and he didn't know what he would do about a coffin. The testimony given when Mrs. Johnson was tried as an accomplice was all against Doxey, and the peo-ple were determined that he should never have a chance of being told by twelve men that he was innocent by being tried in another court. Doxey's body was cut down at 4 o'clock.

Public sentiment is that he very justly pays the penalty for the worst crime ever committed in Mississippi, His mother, upon learning what had taken place, was among the first to appear before his dangling form, part-ly dressed, when she lost all presence of mind and ran the streets, making them hideous by her frantic yells.

The jailor in resisting the mob at first was handled roughly and finally gave up the keys to save himself as they were determined to carry out their motive.

Crenshaw-Mosby Shooting.

Win. Crenshaw, a colored tough, who has for some time past ranged around the batture portion of the city, was arraigned yesterday before his Bonor Mayor Powell on charge of carrying concealed weapons, of which he was convicted. In the course of the trial the facts were developed that he had on Sunday evening, October 11th, shot another negro by the name of William Mosby, in the breast, inflicting a dargerous wound. The shooting took place at or near Antimarchi's store, corner Levee and Speed streets, and, strange to say, was so well hushed up that the police were only able to get Crenshaw on a charge of carrying concealed weapons. The question now is where is Mosby and how hade Crenshaw-Mosby Shooting.

A Terrific Explosion of Gas.

Wilkesbarre, Pa., Oct. 21—A terrific explosion of gas took place in number two slope of the Delaware and Hudson Coal company, at Plymouth, this morning. The greatest excitement prevails there as the slope is full of men and boys; one report has it that the number killed will be large. As far as can be learned fifteen men are known to be fatally burned.

LATER—The coroner has been notified of the accident. It is now reported that of the fifteen men burned fourteen have since died. Priests from this city and Nanticoke have been telegraphed for. It is as now fully explained the accident at number two slope of the Delaware and Hudson company at Plymouth was caused by a miner who entered an abandoned portion of the slope which was marked "dangerous" with naked lamp upon his head, thereby firing the gasses escaping causing a terrific explosion. The loss of line is not so great as at first reported. At this hour, 2 p.m. one man, Dennis Titus, is dead and fourteen are frightfully burned, most of these it is thought can recover. Most of the injured men are Poles and Hungarians. A Terrific Explosion of Gas.

Cannot Pay the Present Prices for Wheat.

Wheat,

MINNEAPOLIS, Oct. 21—The Millers' Association has voted to shut down the first day of November. The reason given is that they cannot pay the present prices for wheat and sell their flour in the East on a basis of advanced rate. They must either get cheaper freight rates or buy cheaper wheat. The millers claim to be running at a loss now, and unless relative prices of wheat and flour come nearer together the only course left will be to stop making flour.

The result of the drill will not be satisfactory no matter how it goes. Our boys feel that they are in for it and will do their best for the honor of Vicksburg and not kick if they lose.

I have not seen the other sompanies drill, but on the parade this morning the Meridian Rifles manual was quite ragged and the Aberdeen Guards were unsteady in marching. The West Point Rifles will be in to-night. They met the train at West Foint and handed around champaigne and eigars.

There is some task of the Southrons objecting to the West Foint and handed around champaigne and signars.

There is some task of the Bouthrons objecting to the West Fointers entering, but it is not likely they will persist.

The Kansas Husband's Murder now exciting such a sensation specially at Emporia, Kansas, the scene of the occurrence, is being discussed from various phases. The prevailing theory is that when s wife is in ill health, suffering from nervous exhaustion or otherwise deranged in the delicate organs peculiar to her sex, the best course is to use regularly Creole Female Tonic, the great regulator, and woman's best friend.

A Prisoner Has a Lively Time With

JACKSONVILLE, ILL., Oct. 21 .- News has reached here from Winchester that Fred Hollar confined in the county jail at that place, for assault, June 22d last, upon Mrs. McLaughlin and Mrs. Taylor, who lived alone on a farm, five miles west of Winchester, was very dangerously and probably mortally wounded by a mob which attempted to take his life yesterday morning. The jail was surrounded by about fifty armed and masked men. They compelled the deputy shoriff to appropriate pelled the deputy sheriff to surrender the keys and conduct them to Hollar's cell. They would have shot their victim to death then and there had not the jailer prevailed upon them to do their bloody work outside of the walls. They dragged the prisoner out, and he at once made a desperate rush for liberty. Forty men fired at him as he ran, only one ball hit him; it penetrated his abdomen. He managed to elude his pursuers at last, and returned to jail here. He was again shot at by men left there on guard; again he ran, this time he met the city marshal, who concealed him and summoned surgical aid. The mob, after thorough search, dispersed. Hollar's recovery is dispaired of. The assault he is accused of was a most brutal one. The two women were defenseless and were cut and hacked without mercy, narrowly escaping death.

Account of the Sufferings Endured by the Scotch Crofters.

New York, Oct. 21.—Rev. D. Mc-Gregor gives a pitiable account of the suffering endured by the Scotch Crof-ters. He is a Baptist minister, presi-dent of the Scotch land league of America, which has its headquarters at Chicago. He has just arrived from Scotland, where he spent the last three months. "The Scotish land league of America sent me to Scotland last August," he said yesterday, "in order that I might study the condition of Crofters and make a report thereon. I traters and make a report thereon. I tra-versed Hebredes thoroughly. I found the people wretchedly poor, bitterly opposed to landlordism and fast drifting toward irreligion and disloyalty. A mass meeting will be held in Chicago in a few days and in this city later. At both of these meetings Scotish-Americans and all others will be told the truth about the Crofters, and will be asked to help them." Mr. McGregor started for Chicago last evening. met Henry Geary during the day and told him that his views on the land question were warmly appreciated by the Crofters.

Startling Developments in the Street Car Strike.

Sr. Louis, Oct. 21-Startling developments in street car strike to-day was the discovery by the police of an internal machine in Washington avenue car track, at the corner Compton avenue and Norman street. The machine was a piece of two inch gas pipe, two feet long and filled with gunpowder; at either end was affixed a gun cap so arranged as to communicate with the powder within and in the center of the pipe a rod was inserted which also communicated with the powder. The machine was laid along the groove in the track and so arranged that the wheel of a car would discharge the cap as soon as it was touched. The gas pipe is now at headquarters. There were no other developments in the strike to-day. All lines are running. The strikers and Knights of Labor had stated that they would put on lines of herdics and omnibuses this morning, one to follow each car, but they have not done so yet.

He Knows Nothing.

New York, Oct. 21.—C. P. Huntington said yesterday he did not believe any notice terminating the con-tract with the Pacific Mail Steamship Company had been given. I certainly know nothing about it. I saw the re-ported statement of Mr. Adams, but I have nothing to say about, it. He is an excellent man, but some men talk a great deal more than others. If I wished to end a contract I should write to others associated with me that we had better meet and talk the matter over. I am sure no notice regarding the contract with Pacific mails has been received in my office,
